

Kevin Davies Bio

Kevin Davies is the Chief Marketing Officer for Provision Analytics, a leading food safety digital solutions platform. Kevin works with some of the most well-respected food safety consulting firms in the industry as they assist clients in their transition from manual document management processes to digital. Previously, Kevin built a CPG compost company that processed 47 million pounds of food waste for clients such as Starbucks. His design for closed loop food systems has won a Manning Innovation Award and a Fast Company World Changing Ideas Award.
