

Heather Gale Bio (June 2024)

Heather Gale is Executive Director of the CanadaGAP program and has been working with Canada's horticultural industry for nearly 25 years. Her career in the fresh fruit and vegetable sector began with the Canadian Horticultural Council, where she was responsible for issues management, communications, and food safety. Heather was part of the original team that developed CanadaGAP, the food safety program designed specifically for fresh produce suppliers. The program has achieved both GFSI and full Canadian Government recognition. Heather is a member of the Canadian Supply Chain Food Safety Coalition Board, the CPMA Food Safety Committee, and GFSI US-Canada Local Group.
