

JP Perreault

Head of Mettler Toledo Recovery

*JP Perreault is the **Head of Mettler Toledo Recovery**, a North American leader in mobile inspection and product recovery services. With over 20 years of experience in the food processing and packaging automation industry, JP has established himself as a trusted voice on foreign material detection and brand protection.*

*He founded and led **Xray Reclaim**, which quickly became recognized for its rapid-response recovery services supporting food & beverage manufacturers during foreign material incidents. In 2025, Xray Reclaim was acquired by **Mettler Toledo**, forming Mettler Toledo Recovery, where JP now oversees the business unit's growth and integration.*

*Earlier in his career, JP was President of **Plan Automation Inc.**, where he championed the adoption of Eagle PI X-Ray systems with advanced PXT™ photon-counting detector technology. Throughout his career, his focus has been on helping processors future-proof against evolving food safety standards with practical, high-impact solutions.*
