

Dr. Manan Sharma is the current President of the International Association of Food Protection. He recently started a position as Senior Director of Produce and Food Safety at The Acheson Group, where he uses his agricultural research background to assist in providing technical, science-based food safety solutions to clients.

Prior to joining TAG, Manan was a Lead Scientist and Research Microbiologist with the U.S. Department of Agriculture, Agricultural Research Service (USDA ARS), Environmental Microbial and Food Safety Laboratory, where he worked for 21 years. His work focused on the drivers of pathogen persistence in pre-harvest produce-growing environments, specifically examining agricultural inputs like manure, compost, soils and agricultural water. He has published nearly 100 peer-reviewed scientific publications and 10 book chapters, and mentored multiple graduate students and post-doctoral research associates. He was previously awarded the IAFP Maurice Weber Laboratorian and Fellow awards for outstanding accomplishments in food safety research.
